### **Election/Restriction**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-23 and 29-31, drawn to transfected antigen presenting cells, methods of transfecting antigen presenting cells, and methods of using transfected antigen presenting cells to induce an immune response, classified in classes 435 and 424, subclasses 325, 455 and 93.2.
- II. Claims 24-28, drawn to methods of producing an immune response by culturing T cells ex vivo and administering them in vivo, classified in class 435 and 424, subclasses 325, 373, and 93.2.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the transfected antigen presenting cells can be used in methods substantially different from stimulating T cells in vitro, such as their use to directly induce immune responses in vivo, or

Art Unit: 1632

to produce heterologous protein. Further, the methods of invention II require the use of isolated T cells which are not required for the methods of invention I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, and different search requirements, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication from the examiner should be directed to Anne Marie S. Beckerleg, Ph.D., whose telephone number is (703) 306-9156.
